

## [Support ISHR | Send a message of solidarity to human rights defenders completing their training in Geneva!](#)

28.06.2019

**Today we farewell 18 brave human rights defenders who attended our flagship Human Rights Defenders Advocacy Programme.**

Whether they are involved in seeking justice for the abuses against their communities by corporations in Papua New Guinea and Brazil, combating stigma and discrimination against the LGBTI community in Barbados and Zambia, protecting women human rights defenders from violence in Belarus and Iraq, or supporting migrants in Guatemala and the Gulf, they all came to Geneva because they want to make the world fairer and more inclusive for everyone with ISHR's - and your - support.

In a few days they will return to their communities, stronger and more equipped to leverage the UN to push for change in their countries. At ISHR, we will continue to follow and support them as they make the journey from ISHR's trainees to ISHR partners and change makers.

Let them know that you support their fight to protect and defend human rights!

[Send them today a message of solidarity!](#)

We know how much such expressions of solidarity mean to defenders, helping build their energy and resilience. With this, along with the tools we provide, they can become even more effective advocates for national-level change. 93 per cent of the participants in our 2018 flagship training reported that they had fully or substantially accomplished their advocacy objectives through the programme, and all thought they would put what they had learnt into practice.

If you wish to further support us, [consider donating](#). It is thanks to your contribution that the International Service for Human Rights can provide this training and support human rights defenders to change the world.

Big or small, your donation will help. Here's how:

- **\$50:** enables ISHR to provide a human rights defender with the comprehensive resources and knowledge they need to use international law to promote and defend those who are denied the enjoyment of their rights
- **\$500:** enables ISHR to provide a defender with strategic advocacy assistance to make their voice heard on the international stage
- **\$1500:** enables ISHR to create an interactive e-learning module on how to leverage the UN for national-level change
- **\$5000:** enables ISHR to provide a defender with direct support, access to key diplomats and UN experts, thereby empowering them to use international advocacy to contribute to change on the ground

Professor and director of Castan Centre for Human Rights Law Sarah Joseph shares her testimony about supporting ISHR.

With your donation, you are standing with human rights defenders and empowering them to strive for a world where we are all treated fairly. Thank you for your contribution!

Phil Lynch

ISHR Director
